DETAILED ACTION

Information Disclosure Statement

The information disclosure statement (IDS) submitted on December 15, 2003 has been considered by the examiner.

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers are of record in the file of the parent application SN 08/515,631.

Reissue Applications

This application is objected to under 37 CFR 1.172(a) as lacking the written consent of all assignees owning an undivided interest in the patent. The consent of the assignee must be in compliance with 37 CFR 1.172. See MPEP § 1410.01.

A proper assent of the assignee in compliance with 37 CFR 1.172 and 3.73 is required in reply to this Office action.

Note: Where a continuation reissue application is filed with a copy of the assignee consent from the parent reissue application, and the parent reissue application is not to be abandoned, the copy of the consent should not be accepted (See MPEP 1410.01).

The reissue oath/declaration filed with this application is defective because the error which is relied upon to support the reissue application is not an error upon which a reissue can be based. See 37 CFR 1.175(a)(1) and MPEP § 1414. The Declarations filed December 15, 2003 and January 18, 2006 discuss errors of claims that have been cancelled (1, 15 and 30) in the preliminary amendment of December 15, 2003. Note also, that the SN of these Declarations is parent SN 09/766,486.

Claims 44-163 are rejected as being based upon a defective reissue Declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the Declaration is set forth in the discussion above in this Office action.

Applicant is reminded of the continuing obligation under 37 CFR 1.178(b), to timely apprise the Office of any prior or concurrent proceeding in which Patent No. 5,861,997 is or was involved. These proceedings would include interferences, reissues, reexaminations, and litigation.

Applicant is further reminded of the continuing obligation under 37 CFR 1.56, to timely apprise the Office of any information which is material to patentability of the claims under consideration in this reissue application.

These obligations rest with each individual associated with the filing and prosecution of this application for reissue. See also MPEP §§ 1404, 1442.01 and 1442.04.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Takahashi (US RE39,296, US RE39,024 and US RE38,421), Sasaya et al (US RE48,403) and Matsuzawa et al (US RE37,846) are all cited to show projection optical systems that have been cited by SN as related applications by the Applicants.
